**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3,14-15, drawn to access point have a single antenna, classified in class 455, subclass 562.1.
  - II. Claims 4-7,16-18, drawn to process of selecting antenna from plurality antennas, classified in class 455, subclass 575.7.
  - III. Claims 8-13, 19, drawn to electromagnetic shield and interference between first and second access points, classified in class 455, subclass 500.
2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because point has a single antenna. The subcombination has separate utility such as access point has selecting from plurality antennas.

Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In

the instant case the different inventions electromagnetic shield and interference between first and second access points.

3. A telephone call was made to Mr. Benoit Castel on 8-23-05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
